Carleton Place, ON

Update on Potential Redevelopment Project

In April 2008, CPDMH submitted a proposal to the Ministry of Health and Long Term Care to build a new and enlarged hospital at the intersection of Maple Lane and Lake Avenue East. When approved, the new hospital is estimated to cost \$86 million, with the Ministry investing \$69 million in the new facility and the community being required to raise the remaining \$17 million.

Over the past year the Hospital has continued to do its best to move the redevelopment project forward. During the year, the Hospital met with candidates of both the municipal and federal election to provide information on the project, provide a tour of our current facilities and appeal for support of this important endeavour. With the upcoming provincial election, the Hospital will continue to present its case to candidates in the hopes of receiving an approval announcement soon after the Members of the Provincial Parliament have been determined.
